

*A REAL Use Case Project on NFT Gaming & Metaverse
20% RACA auto-rewards in total*

Below is a detailed explanation as to why RacaVerse is your most important companion coin in the growing NFT Gaming and Metaverse industry.

WHAT IS RACAVERSE

Expand the vast possibility of the Metaverse with gaming NFTs

RACA is a popular BSC Metaverse project that has grown massively, it has done almost 100x within just 3 months. You must get in RACA if you still don't know about it yet. It is a METAVERSE GameFi with developers and game engineers from Roblox & Tencent Games.

RACA has an extremely high likelihood to be listed by Binance. Before this happens, you must have great exposure to RACA tokens. Therefore, our team has strategically chosen RACA as your auto-reward, you just simply need to invest and hold the RacaVerse token.

Inspired by the RACA project, we as the RacaVerse team dedicate ourselves to building an amazing BSC project with Gaming NFTs + Metaverse Integration.

For every RacaVerse token that is bought or sold, you get 20% auto-rewards in RACA proportionate to your holdings.

As RacaVerse grows together with RACA as a companion, you will get the best of both worlds. Not just the immense intrinsic value of RACA, but our team also works tirelessly in growing our own project, with a roadmap leading to a future NFT marketplace and RacaVerse compendiums.

With this, everyone in the community stands to win very big by supporting this project.

Certain key elements in the success of RacaVerse:

- The developer team is highly specialized in the crypto space, selecting the best token, RACA as a reward token for you.
- We strive to empower you with huge GAINS when RACA is listed in Binance
- The TRUE GEM is when RacaVerse's market capitalization gets pumped hard (especially when we roll out our Gaming NFTs & Metaverse as planned)
- Continuous massive marketing for global exposure and early adoption of the RacaVerse project

RACAVVERSE TOKENOMICS

The RacaVerse smart contract is hosted on the Binance Smart Chain (BEP20 network). It is available for the public on Pancakeswap during the fair launch.

We hold on to RacaVerse beliefs: Transparency, Independence, Free Market, Integrity, and Absolute Privacy; providing a safe and just system for the community and investors.

As the backbone of the first reward towards our early investors, our team devised this splendid token reward system for our community.

Tokenomics

14.9% Buy Tax

- 10% RACA auto-rewards

THE COMMUNITY

RacaVerse aims to be the pillar in the Metaverse, NFT Gaming Space, and GameFi. Our community stands for Transparency, Independence, Free Market, Integrity, and Absolute Privacy in the crypto space.

Besides all the obscene gains in NFTs, NFT Gaming Space & Metaverse, we deliver tools for the community in securing the community experience.

RacaVerse is born to serve that.

All our members are long-term holders, and as we continue to build and strive for a better RacaVerse, we are serving the MetaVerse as a whole, while rewarding our members generously.

The community loves to help. As a RACA compendium and avid NFT gamers/collectors, we pooled some amazing resources to help new members adopt the MetaVerse space, giving them tremendous value over the long run.

Welcome to the RacaVerse community! You will be pleasantly surprised at how wonderful owning the RacaVerse token and being part of our community really is!
